

10 FACTS ABOUT YOUR PROGRAM:

1. Travel arrangements

- There is a set reception day, and pick up times (**from 9am up to 9pm**). Students arriving on different dates or times will need to find their way to get to their assigned housing by themselves.

2. Insurance

- All students need to be covered by an Insurance.
- Educatrip staff will help you out with everything that is considered as an **emergency** during your time in Spain. Any further treatment, medical study, medical exams, and so on will be your responsibility.

3. Attitude towards housing

- Students staying with host families must bear in mind that there is always an **adaptation period** to their customs, habits and so on. Therefore, we would like you to be patient and understanding in adapting to this new way of living.

4. WI-FI

- All our host families have **Wi-Fi connection**. In some cases, your electronic devices might need to be adapted or might show some problems connecting for the first time. Please be patient while it is sorted out.

5. Weather

- If you are coming in the summer, you need to bear in mind that the summer period is logically hot. **Not in all houses there is AC**, but families have fans or so to make you feel comfortable. For the rest of the year, **all houses have some kind of heating**.

6. Money

- Bringing a big amount of cash along with you is not advisable since all change offices charge a **fairly high commission**. You can always withdraw in an ATM with a reasonable commission.

7. Emergencies

- For emergencies out of Educatrip office hours, you need to contact the emergency phone number (on your schedule). By an emergency, we mean any extreme situation that must be solved **at that very moment**, and not later.

8. Activities

- You are **fully responsible** for planning and managing all personal plans (trips/activities) outside Educatrip program. We will not be held liable under any circumstances for any problems that may occur during that plan.

9. Classes

- CILYC, CLCE or CEH classes can be scheduled **at any time of the day**, unlike CILE (only in the mornings).
- If you do **not** manage to **pass the level test** requirements for the CILYC, CLCE or CEH Course (level 4 = intermediate, or above), you will have to **switch to CILE**.

10. Leaving Granada

- It is **not** possible to **lengthen the accommodation** time with the housing assigned. Staying in and traveling out of Granada out of program dates are your responsibilities.
